

Polyethylene (PE)

Inquiry-led PE grade selection for film, blow molding, pipe and extrusion.

TEMPORARY WORKING DOCUMENT. This file is not an issued TDS, COA, certificate, packing list or shipment record. Final documents must match the confirmed product, order and batch.

Typical application discussions

01	Film and flexible packaging
02	Blow-molded bottles and containers
03	Pipe and extrusion

Catalog or selection reference

Indicator	Unit	Working reference
PE family	selection	HDPE / LDPE / LLDPE
Processing	process	Film / blow molding / pipe / extrusion
Producer and grade	reference	Buyer reference or open
MFR or MFI	test condition	Buyer requirement
Density	test method	Buyer requirement
Performance	targets	Application-specific
Documents	scope	TDS / SDS / COA / compliance

SHENMU ZHONGHAO / INDUSTRIAL MATERIALS

RFQ PREPARATION

Polyethylene (PE)

Use this page to prepare a complete technical and commercial inquiry before quotation.

TEMPORARY WORKING DOCUMENT. This file is not an issued TDS, COA, certificate, packing list or shipment record. Final documents must match the confirmed product, order and batch.

Information to provide

01	PE family
02	Processing method
03	Finished use
04	Reference producer or grade
05	Performance and compliance targets
06	Quantity and destination

Packing and loading

Original bags, pallet preference, storage, lot consistency and container-loading requirements are confirmed for the selected grade.

Documents to confirm

State the required COA fields, sampling or inspection method, origin document, commercial invoice, packing list, markings and any destination-specific documents in the RFQ.

Commercial confirmation

Confirm quantity, trial and repeat demand, Incoterm, destination port or country, requested shipment window and payment discussion. No availability, lead time or commercial promise is created by this template.
