

Polyethylene (PE) & Polypropylene (PP)

Inquiry-led polyolefin sourcing matched by resin family, process and grade.

TEMPORARY WORKING DOCUMENT. This file is not an issued TDS, COA, certificate, packing list or shipment record. Final documents must match the confirmed product, order and batch.

Typical application discussions

01	Film and flexible packaging
02	Injection and blow molding
03	Pipe, sheet, fiber and extrusion

Catalog or selection reference

Indicator	Unit	Working reference
Resin family	-	HDPE / LDPE / LLDPE / PP
PP type	-	Homo / random / impact
Processing	-	Film / injection / blow / extrusion
MFR or MFI	g/10 min	Buyer target + test condition
Performance	-	Density / impact / stiffness / clarity
Documents	-	TDS / COA / SDS / compliance

ZHONGHAO ENERGY / INDUSTRIAL MATERIALS

RFQ PREPARATION

Polyethylene (PE) & Polypropylene (PP)

Use this page to prepare a complete technical and commercial inquiry before quotation.

TEMPORARY WORKING DOCUMENT. This file is not an issued TDS, COA, certificate, packing list or shipment record. Final documents must match the confirmed product, order and batch.

Information to provide

01	Resin family
02	Processing method
03	End use
04	Producer or grade code
05	MFR or MFI target
06	Quantity and destination

Packing and loading

Bag, pallet, quantity, destination and container-loading preferences are confirmed for the selected grade.

Documents to confirm

State the required COA fields, sampling or inspection method, origin document, commercial invoice, packing list, markings and any destination-specific documents in the RFQ.

Commercial confirmation

Confirm quantity, trial and repeat demand, Incoterm, destination port or country, requested shipment window and payment discussion. No availability, lead time or commercial promise is created by this template.
